SECTION C: Findings of Fact and Conclusions of Law

1. E.M. Gray & Son, Inc. owns and operates the E.M. Gray & Son facility located at 16440 Industrial Drive, Milford, Virginia, which discharges stormwater associated with industrial activity.
2. The Permit allows E.M. Gray & Son, Inc. to discharge stormwater associated with industrial activity from the E.M. Gray & Son facility to an unnamed tributary of the Mattaponi River, in strict compliance with the terms and conditions of the Permit.
3. During a DEQ Facility inspection and Facility file review on February 1, 2017, DEQ staff documented the following compliance deficiencies with respect to the monitoring requirements of the Permit:
 - a. The quarterly visual examinations of stormwater quality, required by Part I.A.1.a of the Permit, had not been performed from 2014 through the date of the inspection, February 1, 2017. Part I.A.1.a of the Permit requires E.M. Gray & Son, Inc. to perform and document a quarterly visual examination of a stormwater discharge associated with industrial activity from each outfall.
 - b. The Facility has not analyzed nutrient and sediment sample results as required by Permit Part I.B.7.b.(3)(b). Part I.B.7.b.(3)(b) of the Permit requires E.M. Gray & Son, Inc. to analyze nutrient and sediment data collected in accordance with

subdivision 7 b (1) of this subsection to determine if additional action (i.e., a CB-TMDL action plan) is needed for this permit term.

4. During the DEQ Facility inspection and facility file review on February 1, 2017, DEQ staff documented compliance deficiencies with respect to the SWP3 requirements of the Permit, including the following:
 - a. The Facility could not produce a SWPPP: only a Spill Prevention, Control, and Countermeasure Plan (SPCCP) was available. Part III of the Permit requires facilities to develop and implement a SWPPP for the Facility covered by the Permit. Part III.A.1 of the Permit required E.M. Gray & Son, Inc. to develop and implement a Facility SWP3 under their 2009 Industrial Stormwater General Permit, and to update and implement revisions to the SWP3 within 90 days of the issuance of this permit (i.e., by September 28, 2014). Part III.F.2 of the Permit requires an up-to-date SWPPP to be maintained on-site at the Facility for review by DEQ or EPA.
 - b. The training of Facility employees in stormwater pollution prevention required by Part III.B.4.b.(6) of the Permit had not been documented. Part III.B.4.b.(6) of the Permit requires that Facility employees who “work in areas where industrial materials or activities are exposed to stormwater, and for employees who are responsible for implementing activities identified in the SWP3” be trained in stormwater pollution prevention.
 - c. The routine Facility inspections required by Part III.B.5 of the Permit had not been documented. Part III.B.5 of the Permit requires that E.M. Gray & Son, Inc. perform and document routine Facility inspections for all areas where industrial materials or activities are exposed to stormwater at a minimum quarterly and at least once each year while a discharge is occurring to assess the effectiveness of control measures.
 - d. Annual CSCE’s had not been performed for calendar years 2015 and 2016 as required by Part III.E of the Permit. Part III.E of the Permit requires that a CSCE be conducted at least annually, and that the SWP3 shall be modified as necessary, given the evaluation results. Signed compliance evaluation reports shall also be generated and compiled with the SWP3.
5. A response to the inspection report, dated February 14, 2017, was not received by DEQ.
6. Based on the results of the February 1, 2017 inspection and file review, the Board concludes that E.M. Gray & Son, Inc. has violated conditions Part I.A.1.a(1), Part I.B.7.b.(3)(b), Part III, Part III.A.1, Part III.B.4.b.(6), Part III.B.5, Part III.E, and Part III.F.2 of the Permit as noted in paragraphs C.3.a-b, and C.4.a-d of this Order.
7. NRO issued a Notice of Violation for the violations noted above as follows: NOV No. W2017-05-N-0010, issued June 5, 2017.

8. E.M. Gray & Son, Inc. did not respond to DEQ regarding the NOV from June 5, 2017, and a follow-up inspection was performed on July 12, 2018 to reassess compliance.
9. During the July 12, 2018 Facility inspection DEQ staff did not observe a return to compliance for any of the aforementioned violations. Compliance assistance and a permit review was provided by DEQ staff to the Facility staff.
 - a. The annual CSCE had not been performed for calendar year 2017 as required by Part III.E of the Permit. Part III.E of the Permit requires that a CSCE be conducted at least annually, and that the SWP3 shall be modified as necessary, given the evaluation results. Signed compliance evaluation reports shall also be generated and compiled with the SWP3.
10. Va. Code § 62.1-44.5 states that: “[E]xcept in compliance with a certificate issued by the Board... it shall be unlawful for any person to (1.) Discharge into state waters sewage, industrial wastes, other wastes, or any noxious or deleterious substances.”
11. The Regulation, at 9 VAC 25-151-70, also states that except in compliance with a VPDES permit, or another permit issued by the Board, it is unlawful to discharge into state waters sewage, industrial wastes or other wastes.
12. Va. Code § 62.1-44.15(5a) states that a VPDES permit is a “certificate” under the statute.
13. The Department has issued registration to E.M. Gray & Son, Inc. for underground storage tanks (ID # 3013339) in addition to coverage under the VPDES Permit Registration No. VAR051082.
14. The unnamed tributary of the Mattaponi River is a surface water located wholly within the Commonwealth and is a “state water” under State Water Control Law.
15. Based on the results of February 1, 2017 and July 12, 2018 Facility inspections, the Board concludes that E.M. Gray & Son, Inc. has violated the Permit, as described in paragraphs C.3.a-b, C.4.a-d, & C.9.a above.
16. In order for E.M. Gray & Son, Inc. to return to compliance, DEQ staff and E.M. Gray & Son, Inc. have agreed to the Schedule of Compliance, which is incorporated as Appendix A of this Order.

SECTION D: Agreement and Order

Accordingly, by virtue of the authority granted it in Va. Code §§ 62.1-44.15, the Board orders E.M. Gray & Son, Inc., and E.M. Gray & Son, Inc. agrees to:

If the Department has to refer collection of moneys due under this Order to the Department of Law, E.M. Gray & Son, Inc. shall be liable for attorneys' fees of 30% of the amount outstanding.

waiver of the right to any administrative proceeding for, or to judicial review of, any action taken by the Board to modify, rewrite, amend, or enforce this Order.

Nothing herein shall waive the initiation of appropriate enforcement actions or the issuance of additional orders as appropriate by the Board or the Director as a result of such violations. Nothing herein shall affect appropriate enforcement actions by any other federal, state, or local regulatory authority.
7. If any provision of this Order is found to be unenforceable for any reason, the remainder of the Order shall remain in full force and effect.

Gray & Son, Inc. shall be responsible for failure to comply with any of the terms and conditions of this Order unless compliance is made impossible by earthquake, flood, other acts of God, war, strike, or such other unforeseeable circumstances beyond its control and not due to a lack of good faith or diligence on its part.
